Omnis UK Smaller Companies

Investment Manager Market Review

Quarter 3, 2018

The Omnis UK Smaller Companies Fund is a concentrated, but well diversified, high-conviction portfolio. Our investment process focuses on risk, quality and value with an extensive quantitative and qualitative "hands-on" research approach. We believe that in order to be an effective small-cap manager, rigorous in-house research, with a focus on the company's fundamentals and an assessment of a company's value, is required to deliver superior long-term performance.

We are thrilled to be launching the Omnis UK Smaller Companies Fund. We believe the UK smaller companies market is one of the most sophisticated, dynamic and diverse in the world with stocks that can deliver superior investment returns over time.

We believe the fundamental backdrop for the market is largely positive even as UK small-caps might have fallen out of favour with some investors given the heighten risks Brexit and geopolitics pose to growth and prosperity. Whilst this has prompted a degree of caution, we are willing to take a contrarian stance when market mispricing creates outstanding investment opportunities. Given the investment universe's diversity and the opportunity to gain exposure to structural growth stories, we believe many of our investments are insulated from some of these wider economic uncertainties.

ABOUT THE FUND MANAGER

Richard Bullas joined Franklin Templeton Investments when it acquired Rensburg Fund Management in January 2011.

Richard joined Rensburg as a trainee fund manager in 2000. He was promoted to Assistant Fund Manager three years later and then Fund Manager and Associate Director in 2006. He began his career as an auditor at a chartered accountant.

Richard is co-manager on the Franklin UK Smaller Companies Fund and manages the Smaller Companies portion of the Franklin UK Manager's Focus Fund.

INVESTMENT POLICY

The Fund intends to invest at least 70% in the equity securities of smaller UK companies. UK smaller companies are defined as those which are domiciled, incorporated or have significant exposure to the UK and which have a market capitalisation no greater than the largest company in the Numis Smaller Companies ex-Investment Trusts TR Index at the point of purchase. The Fund may also invest in other transferable securities (for example, equity securities of smaller, mid and large international companies), units in collective investment schemes (including schemes managed and operated by the ACD or its associates), money market instruments, warrants, cash and near cash deposits as detailed in the Prospectus.

It is envisaged that the investment portfolio of the Fund will be concentrated, typically comprising between 35 and 60 stocks.

Derivatives may be used for the purposes of hedging and for efficient portfolio management.

ABOUT OMNIS INVESTMENTS

Omnis Investments Limited is wholly owned by Openwork Holdings Limited, bringing established specialist providers together to create a tailored investment solution. It is focused on delivering maximum returns to investors for well-defined levels of risk via a series of funds.
